The Permanent Special Agricultural Water Rate (PSAWR) Program was established by the San Diego County Water Authority (SDCWA) to be administered by the Santa Fe Irrigation District (District) for eligible customers to receive a lower agricultural water rate in exchange for a reduced level of water supply reliability. This application is an agreement for participation in the PSAWR Program between the District and the owner of the property (applicant) applying for enrollment.

Terms & conditions for participation in the program are as follows:

- This agreement is between the property owner & the District. If the property included in the program is transferred or sold, enrollment in this program shall cease. The applicant is required to contact the District on or prior to any transfer or sale of the property.
- There is a \$34 application fee that must be paid to the Santa Fe Irrigation District at the time of submitting this application.
- The agricultural water rate charged to customers is dependent on SDCWA terms in addition to District cost recovery & may change. The rate charged to customers for agricultural water use will be listed in the current rates on the District's website for the proper customer classification. Customer classification in the program (agriculture only or mixed single-family residential / agriculture) is based on the current customer classification with the District.
- Single-family / agriculture customers will be billed the first 44 hundred cubic feet (HCF) of consumption on a bi-monthly basis at their respective single-family residential rate, with the remaining use billed at the PSAWR agriculture rate.
- Please return this application with the SDCWA application & application fee: 1.) in person to 5920 Linea del Cielo, Rancho Santa Fe, CA; 2.) mail to PO Box 409, Rancho Santa Fe, CA 92067; or 3.) scan & email to customerservice@sfidwater.org
